

**IE 1070 – Probability, Random Variables, and  
Distributions Syllabus  
Fall 2024**

**Instructor:** Prof. Yang Liu  
**Credit Hours:** 3  
**Phone:** 028-85990100 ext. 242  
**E-mail:** [yang.liu@scupi.cn](mailto:yang.liu@scupi.cn)  
**Office Hours:** Monday and Wednesday, 1:30 PM - 5:30 PM, or by appointment  
**Office:** Room 415, SCUPI Building

**Teaching Assistant:**

Section 1: Yan Jiang  
E-mail: [2021141520208@stu.scu.edu.cn](mailto:2021141520208@stu.scu.edu.cn)  
Phone: 13658056324

Section 2: Yijia Yi  
E-mail: [2833544568@qq.com](mailto:2833544568@qq.com)  
Phone: 17610288350

**Lectures**

Section 1: Monday, 8:15 AM - 11:00 AM  
Room 102, Zone 3, Liberal Arts Building

Section 2: Tuesday, 1:50 PM - 4:25 PM  
Room 102, Zone 3, Liberal Arts Building

**Textbook** Walpole, Myers, Myers, Ye, *Probability & Statistics for Engineers & Scientists*, 9<sup>th</sup> Edition, Pearson, 2012.

**Course Description**

This course is an introductory course designed for students who are majoring in science and engineering. Specific topics include data analysis, probability, random variables, discrete and continuous probability distributions.

**Course Objectives**

1. Students will understand why good statistics are critical to effective decision making.
2. Students will understand the role of statistics in engineering.
3. Students will have the fundamental concepts of probability and statistics.
4. Students will understand the process by which real-life statistical problems are analyzed.
5. Students will be able to use computer-based statistical analysis

software packages such as SAS and R.

**Learning Outcomes**

- (a) An ability to apply knowledge of mathematics, science, and engineering
- (b) An ability to design and conduct experiments, as well as to analyze and interpret data
- (c) An ability to identify, formulate, and solve engineering problems
- (d) An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice

**Pre-requisites** No specific courses, but students must show sufficient academic maturity.

**Grading**

Midterm Exam	30%
Final Exam	40%
Homework	20%
Quiz	10%

## Final grades:

Level	Letter Grade	Reported Numerical Score	Grade Points
Superior Performance	A	90 - 100	4.0
	A-	85 - 89	3.7
Meritorious Performance	B+	80 - 84	3.3
	B	76 - 79	3.0
	B-	73 - 75	2.7
Adequate Performance	C+	70 - 72	2.3
	C	66 - 69	2.0
	C-	63 - 65	1.7
Minimal Performance	D+	61 - 62	1.3
	D	60	1.0
Insufficient Performance (Failure)	F	< 60	0.0

## Course Policies:

- Students are expected to come prepared for each lecture by reading the appropriate material prior to class
- Questions concerning the grading of homework assignments, project-related materials, or exams must be presented to the instructor or the TA within one week (7 calendar days) after the materials have been made available for return to the student
- Late assignments will **NOT** be accepted, and all assignments, projects, and examinations must be **completed/taken at the scheduled time**. No exceptions will be made unless there are truly extenuating circumstances
- Cheating or academic dishonesty in any form will result in a grade of F for the course; there will be no exceptions to this policy.
- Professional classroom demeanor is required; in particular, all cell phones and personal electronic devices must remain off or silent during the lecture.
- Do not conduct side conversations during the lecture as it is distracting to the lecturer and other students.

**Email Policy** Email will be responded as promptly as possible. For detailed technical questions, please talk to the instructor during office hour.

**Audio-Video Recording**

To ensure the free and open discussion of ideas, students may not record classroom lectures, discussions, and activities without the advance written permission of the instructor, and any such recording properly approved in advance should be used solely for the student's private use.

**Make-up exam Policy**

Make-up exam grading is only to replace your final exam grading. Students who pass the course after the make-up exam will receive only a passing grade as the final grade.

**Special Accommodations**

If the student has a disability for which the student is or may be requesting an accommodation, the student is encouraged to contact the instructor.

**Tentative Schedule**

- Week 1: Introduction
- Week 2: Introduction to Statistics and Data Analysis
- Week 3: Mid-Autumn Festival
- Week 4: Probability
- Week 5: National Day Holiday
- Week 6: Probability
- Week 7: Random Variables
- Week 8: Probability Distributions
- Week 9: Probability Distributions
- Week 10: Mathematical Expectation
- Week 11: Mid-term Exam
- Week 12: Mathematical Expectation
- Week 13: Discrete Probability Distribution
- Week 14: Continuous Probability Distribution
- Week 15: Continuous Probability Distribution
- Week 16: Course review
- Week 17: Final Exam
